ABOUT US

Our Story

Islamic Clothing Manufacturing in Ajman

AL RUQIU Tailoring (S.P.S-L.L.C). Since 2010. Islamic clothing manufacturing in Ajman, UAE, specialising in bulk and custom luxury/premium abayas for brands. B2B only; no individual retail sales.

The business works with clients on abayas and other Islamic garments, with design, material, sampling, and production requirements reviewed for each proposal.

The Ajman facility supports garment-making activities such as cutting, stitching, embroidery, handwork, finishing, pressing, and packing where applicable to the agreed specification.

The scope, production route, materials, and responsibilities for each project are confirmed in the applicable quotation, proposal, or agreement.

Our Mission

"Our working aim is to develop Islamic apparel with careful attention to modest design, clear specifications, and responsible project coordination."

Production Planning

- **Monthly production capacity:** 13,000+ pieces per month
- **Staff:** 160+ staff across our production facilities
- **Reach and catalogue:** 35+ countries; 100+ brands; 999+ designs
- **Production departments:** cutting, handwork, embroidery, stone, sewing, button, finishing
- **Samples and MOQ:** around 5–10 days; 20 pieces per design per color
- **Production lead time:** Lead time depends on the design, fabric and quantity, and is confirmed in the quotation after sample approval.
- **Pricing:** Pricing depends on the design, fabric and quantity and is confirmed in the quotation.

OUR PRODUCTS

What We Manufacture

Abaya & Islamic Garment Manufacturing

AL RUQIU coordinates garment development and production activities from concept through finishing. The applicable proposal or agreement identifies the production route, responsibilities, and quality review points for each order.

Abaya Manufacturing — Our Core Expertise

We develop abaya styles ranging from everyday designs to embellished and occasion-led pieces. Feasibility depends on the design, fabric, embellishment, sampling, and requirements confirmed for the order.

- Classic & Everyday Abayas — Designs for regular wear, subject to approved specifications
- Embroidered Abayas — Machine embroidery and custom thread patterns where agreed
- Beadwork & Handwork Abayas — Handwork and bead embellishment based on the approved sample
- Stone & Crystal Abayas — Stone or crystal detailing where specified in the approved design
- Occasion Abayas — Embellished designs developed against the agreed brief
- Custom Designs — Color, pattern, and construction reviewed against client requirements
- Open, closed, kimono, butterfly, and other styles subject to design review

---

Beyond Abayas — Other Islamic Garments

The Ajman facility can review a range of Islamic garments and modest fashion items beyond abayas:

- thobes
- kandoras
- jalabeyas
- prayer dresses
- bishts
- children's Islamic clothing

Design Capabilities

Clients may submit a design brief for review. Feasibility, sampling, materials, and production details are confirmed in the applicable proposal, quotation, or agreement:

- Color review — Supplied color references or Pantone specifications can be assessed
- Client design development — Submitted references reviewed for production feasibility
- Original design development — Concepts developed into a proposed sample where agreed
- Sample development — Sampling scope confirmed before production
- Fabric sourcing — Available fabrics and sourcing requirements discussed per project
- Private labeling & branding — Client branding addressed only where agreed
- Minimum order quantity — MOQ starts at 20 pieces per design per color; final requirements are confirmed in the quotation.

TECHNOLOGY & BRANDS

Innovation & Partnerships

Technology at Our Core

Our digital tools support order coordination, records, and communication. Available functions and access are confirmed for the relevant client or project.

- AL RUQIU Portal for vendor and client coordination (portal.alruqiu.ae)
- Order, invoice, and payment records where enabled for the project
- Barcode authentication for product records (authenticate.alruqiu.ae)
- Email and WhatsApp communication channels
- Digital reporting and administrative records as applicable

Brand Collaboration

Brand development and manufacturing discussions are handled on a proposal or agreement basis. References and brand names are shared only where the relevant client has authorized their use.

- Posh Abaya
- Senso
- The Hijab Company
- Yalla WorldX
- Zellbury
- TGM
- Abay
- ZamZam Land
- OWS program partner: Blyntl. A franchise program is available.
- End-to-end order tracking and end-to-end client support

Destination Review

- 35+ countries; specific destinations are reviewed for each order
- Export documentation, delivery terms, and destination are confirmed in the agreement
